

Notre Dame Holds Great Lakes Team To 7-7 Score

DRISCOLL AND GIPP, STARS OF BIG GAME HERE

Former Northwestern Man is Great Ground Gainer for Navy Squad.

Playing true to form, Rockne's Blue and Gold warriors held the Great Lakes eleven to a 7-7 tie Saturday afternoon at Notre Dame. Notre Dame scored in the first five minutes of play and the game appeared to be in favor of Notre Dame the rest of the half. Driscoll was the only "Jackie" that gave the Notre Dame men much trouble. Time after time this lad would skirt the Notre Dame ends for 15 and 20 yards. This man is one of the fastest quarterbacks seen on Cartier field for some time, and his great end runs were alone enough to interest the fans.

Gipp was the Notre Dame star throughout the game, his long end runs opened the road for Notre Dame's touchdown that came after Gipp had made a 15 yard dash around right end. Lambeau made five more yards through the center, and Willie Mohn, on a quarterback run, went through for a touchdown. Gipp kicked goal after both teams had exchanged the ball for several minutes. The quarter ended with Notre Dame in possession of the ball on her own 25 yard line.

The Great Lakes touchdown came in the third quarter after a number of long end runs by Driscoll and Erickson, who carried the ball to the 35 yard line. Here Driscoll on a long run raced 25 yards for the touchdown. He then kicked goal.

Kirk, the Notre Dame end, played a great game and time after time he would nail Driscoll and Erickson on their long end runs. Lambeau at fullback played a steady game and cut into the line with several long end runs. Smith, the N. D. guard, was a source of defense in the line and was in the thick of the battle all during the game. For Great Lakes Driscoll and Erickson were the chief ground gainers and in the defense, Bachman and Jones, two former Notre Dame men, were the cause of much trouble to the Notre Dame line.

MICHIGAN AGGIES LOSE TO PURDUE 14-6
Associated Press Service:
EAST LANSING, Mich., Nov. 9.—The breakers of the game were against the Michigan Aggies today and they lost to Purdue on a muddy field, 14 to 6. The visitors were outplayed throughout the game and scored both their touchdowns on intercepted passes. Bartlett kicked goal both times for Purdue. The Aggies rushed the visitors off their feet in the third quarter when Archer scored their only touchdown but failed to kick goal. In the last quarter, the ball was in Purdue territory most of the time, but intercepted passes and a fumble lost the game for the Aggies.

FT. HARRISON CLEARLY OUTCLASSED BY I. U.
Associated Press Service:
BLOOMINGTON, Ind., Nov. 9.—Fort Harrison clearly was out-classed by Indiana university in the football game here today and lost, 41 to 0. The Indiana squad was exceptionally clever with forward passes, by which a number of good gains were made. The soldiers made only two first downs and had the ball in the Indiana territory only once.

HARVARD DEFEATS TUFTS
Associated Press Service:
CAMBRIDGE, Mass., Nov. 9.—Harvard defeated Tufts at football by a score of 7 to 6 today. Close following of the ball by Capt. Daley of Harvard and a former captain of the Dartmouth football team of 1911, gave the crimson its chance to score. Daley recovered the ball which Fullback Pitts of Tufts dropped on his own 12 yard line after a poor pass and Fullman, the freshman fullback, went over the goal line after three rushes. Hunneman also kicked the goal.

SAVE BOYS FROM EFFECTS OF GAS

Boys and Girls Are Urged to Scour Woods For Nuts During Fall.

NEW YORK, Nov. 9.—Every boy and girl in this country is again asked by the United States government to help save American soldiers from the horrors of German gas. The Chemical Warfare division of the army has urged them to gather every walnut, hickory nut and butter nut in the woods about their homes this fall to help make gasmasks for the American troops in France. It is from the shells of these nuts that the charcoal for gasmasks must come for the next six months or more.

There is said to be a ready and profitable market for the nutmeats, making it practicable to turn the shells into the government immediately. Whole nuts can also be used. For collection purposes the Red Cross has arranged 160 collection centers through the country for the concentration of shells. They will be shipped from these points in car load lots to the government carbon plants at New York and San Francisco.

The boy scouts have enlisted the aid of their 442,000 young members in this work, as have the campfire girls. Through the department of agriculture all county agents of that department will organize nutting parties. In addition every school is urged to arouse the interest of its pupils and to encourage nut gathering in every spare moment of the pupils' time.

The aid of the young people will be absolutely necessary to supply the 100,000,000 pounds of shells and fruit stones that the government production schedule calls for. The government cannot buy more than one-third the necessary shells at present. In fact, they declare that the shells of all the coconuts grown in the West Indies and Central America, if they could be obtained, would not fill the needs. They are making arrangements to get the shells from the East Indies, but it will be months before this plan can be put into cooperation. In the meanwhile they must mix the available shell charcoal with wood charcoal. This is not to the best interest of the men because the wood charcoal settles, making breathing difficult, and it has not the absorbent qualities of shell charcoal.

The people, because of the smallness of the task asked them, failed to realize its importance and did not respond well to the appeal made during the fruit season. What the help of each person means as shown by the fact that two peach stones or two large nuts turned in each day by each person in the nation would supply the needs. It is hoped, however, that now one will hold to this schedule as there will be many unthinking person's quota to fill.

Gas barages for some time have been one of the principal factors in German warfare. Their mustard gas, with its horrible after affects, is one of the worst atrocities of the war. Even now, in their retreat, the Germans are using a non-exploding, perforated gas shell which they fire into the marsh lands and which makes the entire district into which they are thrown a "section of death" for days afterward.

This can all be successfully combated if Americans will turn in their hickory, brazil, walnut and butter nut shells and peach, apricot, plum, olive, date and cherry stones, for gasmasks for American soldiers.
